Title Course #

Dates Location

Pavement Design and Maintenance

Asphalt Pavement Maint./Local Agencies (IDM-04)

November 4 :: San Diego

Traffic Engineering and Operations

Traffic Flow Principles for Practitioners (TE-27)

October 1 :: Richmond

Annual MUTCD Workshop (TE-06)

December 2 :: Redding

Fundamentals of Traffic Engineering (TE-01)

December 7-11 :: Monrovia

Traffic Signals

The classes below are all part of the Traffic Signal Engineering Academy. Learn more at

www.techtransfer.berkeley.edu/trafficsignals.

Signal Timing and Operations (TE-04)

October 5-6 :: Richmond

Synchro and SimTraffic (TE-13)

October 7-8 :: Richmond

Traffic Signal Design (TE-02)

October 13-15 :: Richmond

Type 170 Traffic Signal Controller (TE-08)

October 19-20 :: Richmond

Type 2070 Traffic Signal Controller (TE-09)

October 21-22 :: Richmond

Advanced Traffic Signal Operations (TE-10)

October 26-27 :: Richmond

Construction Inspection of Traffic Signals (PD-02)

October 28-29 :: Richmond

Infrastructure Design

Traffic Calming: Strategies that Work (PL-04)

May 27-28 :: Diamond Bar

Design and Maint. of Guardrail/Roadside Barrier Systems (TS-03)

June 4 :: Redding

Designing Safe, Accessible Pedestrian Facilities (TE-20)

June 23-24 :: Sacramento

Geometric Design for California (IDM-01)

August 11-13 :: Oakland

October 13-15 :: Oakland

December 8-10 :: Richmond

ADA and Transportation Facility Design (TE-18)

November 17 :: Ontario

Planning, Funding, and Environment

Effective Transportation Planning Practice (PL-01)

June 2-3 :: Costa Mesa

Air Quality Conformity for California (PL-05)

June 11: Diamond Bar

Funding and Programming Transportation Projects in CA (PL-02)

December 15-16 :: San Bernardino

Intelligent Transportation Systems

Applying Systems Eng. Principles to ITS Projects in CA (TE-21)

FREE

www.techtransfer.berkeley.edu/itstraining

July 14-15 :: Los Angeles

November 2-3 :: San Jose

November 4-5 :: Fresno
